Subject: FW: Lindsey Lake/Space Age I-84 Diesel Tanker - After Action Review
Date: Monday, April 08, 2019 1:31:57 PM

Richard & Jeff – are you guys interested in attending this AAR? I can follow-up with Greenburg if you'd like.

Matt Magorrian

Subject: Lindsey Lake/Space Age I-84 Diesel Tanker - After Action Review

Most recipients of this email were members of organizations that were involved in the response this incident. Others are planning agencies that do planning, preparedness and other coordination with DEQ. This is being sent as a blind cc: so as not to cause a mass dump into everyone's emails.

Please send an email to me greenburg.michael@deq.state.or.us indicating whether you plan to attend the After Action Review (AAR). Please also confer with your colleagues you know were involved and send me email addresses for anyone who plans to attend that I may have missed. We have not selected the date (in June) but once I have the list of attendees refined better DEQ will do a DoodlePoll to figure the best date to hold it. We will most likely hold this in either Hood River or The Dalles depending on space availability and number of attendees.
